

# Keneth Mariuz T. Banasihan

Sto. Domingo Bay, Laguna 4033 | kenethmariuz.banasihan@gmail.com | 09195845006

## CAREER OBJECTIVE

Motivated and willing to learn, with a strong focus on growing and improving skills. Actively seeks opportunities to develop and contribute effectively in any IT-related role.

## TECHNICAL SKILLS

- Programming & Web Development: Java, C#, HTML, CSS, PHP, JavaScript, Python
- Database Management: SQL
- IT Support: Computer hardware & network troubleshooting
- Tools & Applications: Microsoft Office (Word, PowerPoint, Excel) Adobe (Photoshop, Premiere Pro)

## WORK EXPERIENCE

### 486 hours On-the-Job Training (OJT) – IT Operations Intern

*Concentrix Nuvali*

- Assisted in daily IT operations including troubleshooting hardware and software issues.
- Installed and configured required applications to ensure user readiness and system compatibility.
- Supported system maintenance tasks, ensuring smooth functionality of workstations and peripherals.
- Ensured compliance with IT security policies by following standard procedures for system access, software usage, and data protection.

## ACADEMIC PROJECT

### Capstone Project – Calamba College Finder

Project Leader & Lead Programmer | STI College Calamba 2024

- Led a team in developing an information system that provides students with school listings, available courses, tuition fee details, and licensure exam passing rates.
- Designed and implemented a career test module that guides undecided students toward suitable courses through a questionnaire-based recommendation system.
- Oversaw system architecture, database design, and coding using PHP, MySQL, HTML, CSS, and Java.
- Coordinated project milestones and presented the system to faculty panel, receiving high evaluation for functionality and usability.
